PCDI Newsletter - March 2018

PCDI - Postdoc Career Development Initiative - is an organisation that enhances the broad development of early career researchers to maximise their potential as science professionals, inside or outside academia.

What’s in this newsletter?

- Get professionally attractive outside academia- Next course starts on 20 April
- Individual coaching at PCDI
- Visit BCF Career Event 2018
- Biobusiness Summer School
- PCDI's (inter)active community
  - Join PCDI on LinkedIn
  - PCDI on Facebook
  - Follow PCDI on Twitter

Get professionally attractive outside academia

Do you have a strong preference to pursue your career outside academia after your PhD? Would you like to explore your options but do not know where to start or how to narrow down to the ones that suit you? Do you want to learn how to increase your professional attractiveness to non-academic employers?

A successfull transition out of academia requires solid preparation. How can you make yourself professionally attractive outside academia. The PCDI course Employability outside Academy is developed to support you in this preparative phase. Take part into the upcoming edition of this 3x 1 full-day course on 20 April - 25 May - 22 June in central Utrecht. For detailed information about the course programme and how to fund your participation, please visit our website. Maximum number of participants is limited to 18, so be quick to avoid disappointment and register now.
Individual coaching at PCDI

Wondering how to balance the demands of a senior role, how to handle difficult work related situations or manage a career change? Then coaching may be a good option for you. PCDI offers **personal guidance** to assistant professors, postdocs and PhD students helping them to take charge of their situation, move forward with confidence and really make things happen.

Do you want to know how PCDI can support in your personal questions and how to apply for coaching, please visit the [website](#). Please be aware that you can use your personal budget or transition budget to fund your coaching. [Read more](#).

BCF Career Event 2018

Are you almost finished with your PhD and interested in job opportunities? Do you want to know more about the current labour market? Visit [BCF career Event 2018](#), the largest career fair for PhD students, postdocs and (young) professionals in the sectors Life Sciences, Chemistry, Food and Pharma, on 24 May in Jaarbeurs Utrecht, the Netherlands. For more information and free registration, click [here](#).

Biobusiness Summer School

The next edition of the [BioBusiness Summer School](#) will take place from 25 June – 29 June in Amsterdam. In this five-day course you will learn the principles of biobusiness, gain insight in the world of Life Sciences, get the chance to meet leading business people and increase your international network. For more information and registration, click [here](#).

PCDI’s (inter)active community

Get more out of PCDI. Interact with our evergrowing community of 4,000 PhD graduates!

- **Join** our [PCDI LinkedIn group](#), a network of more than 2,300 fellow PhDs in the broad spectrum of Sciences. Ask your questions on career development, exchange experiences and find contacts at organisations that suit your interests and profile.
- **Like** PCDI on [Facebook](#) to receive updates on activities and publications to support career development.
- Follow PCDI (@PostdocNews) on [Twitter](#), receive tips & tricks and join relevant discussions on professional development. Tweet your questions and thoughts right to our destop using hashtag #PCDI.
